

# SURGICAL & MEDICAL SUPPLIES

Furniture Product Catalogue

**Surgical & Medical Supplies Pty Ltd** is a proudly South Australian owned and operated company supporting the Healthcare industry since 1970. Over the last 40 years Surgical & Medical Supplies has proven to be a leading supplier of medical equipment, distributing for some of the industries best known brands. Currently our customers can order from a wide variety of product ranges, including but not limited to:

Philips	Convatec/UnoMedical	Sigvaris	Ambu
Heine	Midmed	Dalcross	Hartmanns

Initially established to service Theatre, Critical Care, and Hospital Supply Departments, Surgical & Medical Supplies has grown to provide a wide variety of Healthcare solutions. Our extensive product range now allows us to service customers across many disciplines. Some examples of this include:

Anaesthetics	Gynecology	Veterinary Practices
Podiatry	Urology	Day Surgery
General Practice	Emergency Medicine	Vascular
CSSD	Radiology	Scientific Laboratories
Respiratory Medicine	Dentistry	Aged care

Customers have the opportunity to save time and money by dealing directly with a supplier in Adelaide.

From our central locality on Kensington Road we offer a high level of service, training and support through:

Extensive warehousing - customizable to suit your needs

Local customer service

Same day delivery options

Immediate administrative support

Finance assistance

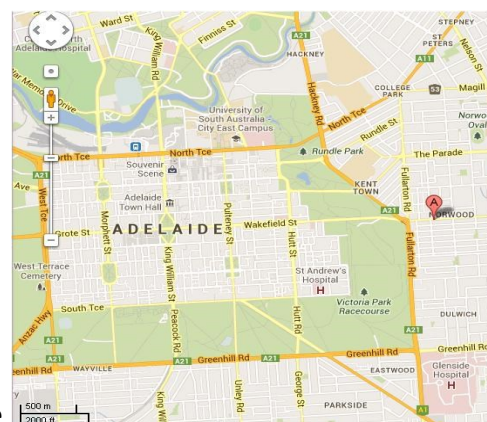

Sales and Marketing support

Product and Clinical Training

Demonstration and sample products

Access to Product Specialists and Key Account Managers

All just a short stroll from the bustling east end of Rundle Street.

# Patient Trolley Accessories

## Multi-X Accessories

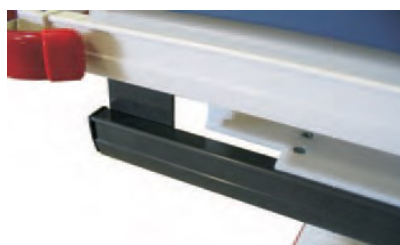

**Laser Mark System** This is a line of numbers (6-0-6) bolted to the inside of both end rails of the trolley, coinciding with numbers (0-6) on both ends of the crossslide.

Laser lines from the X-Ray tube are then used to centre the cassette accurately.

**Ezi-Centa** - clips onto the cassette crossslide and by using the shadow cast from the tube light source it can be positioned quickly under target. The bar then rotates for unobstructed X-Ray.

**Buccì Support** A full length plastic support sheet can be fitted to allow other Buccì systems to fit and give total freedom of movement. A self-centering cassette holder is also available.

### Removable Chest X-Ray

A lightweight, all stainless frame  
Hooks onto the backrest to support any size of X-Ray cassette and grid.  
Height adjustable to assist with positioning.

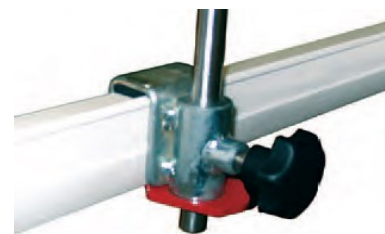

### C-Spine Cassette Holder

This stainless frame holds all cassette sizes and drops into the IV sockets on the trolley. It is height adjustable with positioning along the top as well.

### Cutaway Corner

Two or four corners of the bucci can be modified to allow further travel of the cassette at the foot or head end.

## Deluxe Accessories

**X-Ray Subtop** A translucent subtop can be fitted to the Deluxe for full body X-Rays. Both ends of the subtop can be lifted for easy cleaning. A self-centring cassette holder is also available.

**Rail Clamp** Designed for the Deluxe, this clamp locks onto the side rail, near the backrest. It holds any accessory with a 5/8" spigot.

# Patient Trolley Accessories

## Standard Accessories

**Multi Riser Drop sides & Reverse Folding** 6, 7 or 16 riser drop sides can be fitted to some models with all drop sides also able to be mounted folding from foot towards head.

**Flush Fold Drop side** Classic style drop side which folds down flush with trolley top, may be fitted, allowing slide transfer of mattress or horizontal X-Ray.

**Mid Position Catch** This catch locks the Classic style drop side at approx. 45 deg. To give more access to the patient and some continued support.

**Mattress** Three mattress thicknesses are available: 50mm, 75mm (standard issue) and 100mm. They are made from medium density foam and covered in pressure care material.

**100mm Pressure Care** This mattress is constructed of layered foam - slow recovery over medium density. It is covered with four way stretch pressure relieving material.

**Padded Bumpers** 25mm thick high density foam covered in the same material as the mattress. Fits both the Classic and Deluxe style drop sides.

**Head End Accessory Sockets** A pair of sockets mount to the head end of a Contour top and hold accessories including end rails and Ophthalmic head board.

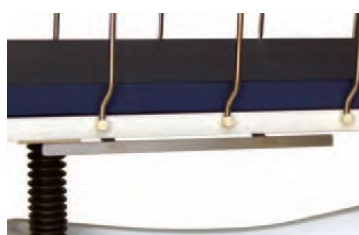

**Ophthalmic Head Board** Lightweight head board which drops into head end accessory sockets on a Contour Trolley. It tilts up and down and is lockable.

**Arm Board** The arm board is padded for comfort and is 450 x 200 with 250mm height adjustment. It also has a wrist break 120mm in from the end.

**Surgi Rail Short** The Surgi Rail Short is 400mm long.

**Surgi Rail Long** The Surgi Rail Long is 700mm long. It is constructed from 30 x 6 stainless and bolts to the underside of Contour tops.

**Surgi Rail Clamp** An alloy clamp which holds 5/8" bar and fits onto our Surgi rails.

# Patient Trolley Accessories

## Standard Accessories

**Knee Break** Wind handle or electric operated, the Break raises 150mm for patient comfort during recovery or long stay.

**Dropdown Push Handles** Strong, foldaway handles with rubber grip for pushing the trolley. 150mm high x 250mm between hand grips.

**Horizontal Oxy Holder** A fully stainless steel basket for 155 dia. x 500 long oxy bottles. Hung from head end of trolley and allows front loading of bottle.

**Drain Bag Holder** 270mm long stainless steel holder, fastened to the centre of a trolley top on both sides.

**Ventilator Support Brackets** A variety of brackets which mount to the head end of Contour tops to support oxy delivery systems.

**Patient Tie Point** Strong metal bracket mounted both sides of trolley top to attach customer tie strap.

**Easy Head Access** A cutaway head endrail can be fitted on to most Contour trolleys to allow greater access to the patients face and head.

**Hydraulic Height Increase** A 50mm spacer can be added to increase the trolley height and camera clearance.

**Document Holder** 380 x 40 x 225mm deep wire basket. Hangs from trolley end rails. May also be fitted to the dropdown foot board or folding monitor board.

**Footend Rail** 175mm high x 600mm wide stainless rail, drops into footend sockets for pushing from or used as patient feet stop.

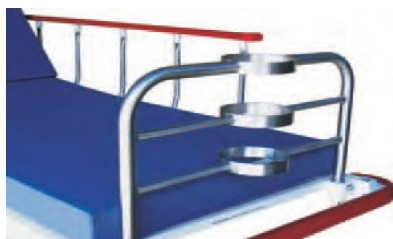

**Foot Rail Tall** Fully welded stainless foot rail 235mm high and 600mm wide with one cross tube.

**Foot Rail Support** Fully welded stainless foot rail 345mm high and 600mm wide, with two cross tubes

# Patient Trolley Accessories

## Standard Accessories

**Foot Rail Oxy** Fully welded stainless steel foot rail with support rings and stop for a "C" size oxygen cylinder.

**Vertical Oxy Holder (Rail Mount)** Stainless steel basket for maximum bottle size of 120 dia. X mm deep.

**Vertical Oxy Holder (Corner Mount)** Stainless steel basket for maximum bottle size of 120 dia. X 320mm deep.

**Fixed Monitor Board** A 450 high x 600 wide all stainless fixed frame with a 20mm full surrounding lip for safety.

**Folding Monitor Board** A strong stainless frame with push handles. The board folds over and has two tie straps for fastening monitors 500 high x 650 wide.

**Dropdown Foot Board** Padded for patient comfort, the dropdown foot board has handles for pushing the trolley and folds down to increase the mattress length.

**Folding IV Pole** The folding I.V. can be mounted at both ends of most trolleys and generally folds down to the right. It can be installed to reverse fold.

**Round Pump Pole** 25 Dia. x 950mm fixed height stainless pole for securing pump units to. Bag holder welded to top.

**Meal Tray** A vinyl wrapped board scalloped for patient comfort, it can fit both Classic and Deluxe style dropsides 680 x 400 x 25 mm thick.

**Paper Roll Holder** A bracket is bolted onto the head end rail of the trolley with a lift out paper roll axel. The paper is for high patient turnover, minimizing sheet changing time.

**Ezi-Trak** Centre steering makes handling effortless whilst the wheels ride easily over bumps and hollow due to gas pressure.

**Tri-Control** Raise, lower or tilt your trolley from the foot end. Head end control can be achieved by reversing the base and using special decals.

# Patient Trolley Accessories

## Standard Accessories

**Anti-Static Strip** A special anti sparking rubber strip mounted under a base to discharge any buildup of static electricity.

**Removable Storage Tray** Plastic storage tray can be clipped on to the head or foot end of the base 385 x 300 x 130 mm deep.

**Base Oxy Holder** An all stainless fixed frame for a maximum bottle size of 140 dia x 890mm with a retaining strap.

**Electric Drive Compatibility** Enhanced clearance bases or custom push bars can be made to suit most electric drive units used today

**Tie Rail on Base** Solid stainless rail mounted on electric or end control only bases, for securing special patients.

# Transport & Treatment Chairs

## Swifi Transfer Chair

- 200kg capacity
- Adjustable arm rests
- Centralised brakes
- Retractable footrest
- Backrest & seat in class M1 flame retardant seamless covering
- Front shock absorbers

## Deneo Blood Sampling Chair

- 200kg capacity
- Fixed height & hydraulic variable height
- Light grey epoxy covered steel for the base & structure
- Two lateral integrated hand grips
- One piece structure seamless upholstery
- Two removable formed armrests with swivel adjusting system
- Seamless heat formed M1 covering

## Ambeo Power Day Surgery Chair

- Designed for every stage: Welcome, Preparation, Transfer, Procedure & Wake up
- Foam thickness 80mm
- 4 Electric motors: back & seatrest reclinable, variable height, foot cushion
- Hand control allows patient independence
- Built-in oxygen bottle holder
- Removable upholstery with antibacterial protection
- Weight capacity 200kg

# Examination Couches

## Standard Examination Couch

- Adjustable headrest
- Overall dimensions: 1820mmL x 610mmW x 780mmH
- Safe working load 125kg
- Vinyl upholstery, powder coated frame

## Heavy Duty Examination Couch

- Adjustable headrest
- Overall dimensions: 1820mmL x 610mmW x 780mmH
- Comfortable thick foam padding
- Safe working load 250kg
- Vinyl upholstery, powder coated frame

## Mobile Examination Couch

- Vinyl upholstery colours: grey or black
- Fixed 75mm thick foam padded top
- 125mm Rubber castors, 2 with locks
- Adjustable headrest
- Overall dimensions: 1820mmL x 610mmW x 780mmH
- Safe working load: 125kg
- Accessories available:
  - Safety rails
  - Wire basket
  - IV pole & clamp

## Gynaecological Couches

### Three Piece Gynaecological Couch

- Sturdy chrome frame
- Vinyl upholstery
- Gynae cut-out & folding footrest
- Adjustable headrest
- Overall dimensions: 1845mmL x 610mmW x 780mmH
- Safe working load 125kg

### Two Piece Gynaecological Couch

- Sturdy chrome frame
- Vinyl upholstery
- Gynae cut-out & folding footrest
- Adjustable headrest
- Overall dimensions: 1820mmL x 610mmW x 780mmH
- Safe working load 125kg

### Elansa Gynaecological Table

- Electric height adjustment from 46cm to 106cm
- Combined height & backrest movements
- Pedal control
- Sliding plastic pan
- Gas spring assisted backrest adjustments
- Bilateral receptacle for optional colposcope holder
- Seamless upholstery with class M1 flame retardant covering
- Removable seat
- Paper roll holder
- Weight Capacity 170kg

## Electric Examination Couches

### All-Electric 2 Section

- Overall dimensions: 1955mmL x 710mmW
- 200kg Safe working load
- Hand switch controlled electric motors for Hi-Lo lift function and backrest
- Optional dual control kit available - Footswitch for Hi-Lo lift, Hand switch for back
- Leveling feet for perfect stability
- Retractable wheels for easy mobility

### All-Electric 3 Section

- Overall dimensions: 1955mmL x 710mmW
- 200kg Safe working load
- 3 Motors for height, backrest and leg rest
- 6-Button hand switch controls all functions. Additional foot switch controls the height only
- Leveling feet for perfect stability
- Retractable wheels for easy mobility
- Super strong construction with heavier base frame to prevent tipping

### Physio 3 Section

- Unique surround bar activated electric motor for Hi-Lo function
- Gas strut assisted long section and short section
- Overall dimensions: 1955mmL x 710mmW
- 200kg Safe working load
- Strong, rigid frame with dual lifting points
- Quality upholstery finish in grey or blue vinyl
- Levelling feet for perfect stability
- Retractable wheels for easy mobility

## Recliners / Transporters

### Champion Recliners / Transporters

- Patients recline easily by themselves
- All steel, powder coated frame for durability
- Foldaway side table
- Push handle
- Retractable foot tray
- 5" Thermoplastic castors
- Quick release seat

### Stephen H Anatomical / Flat Hospital Treatment Chair

- Ideally suited for Chemotherapy & Renal Dialysis
- Headrest
- Painted stainless steel frame 304 grade with antimicrobial coat
- Motor for simultaneous movement of back rest & leg rest
- Movement by handset with easy access for the patient
- Trendelenburg 10°
- Cleanable fabric with antibacterial and antimycotic properties
- Flame retardant fabric
- Weight capacity 200kg for standard size
- Mid, Junior & Large also available

### Bariatric Heavy Care Patient Trolley

- Fully motor powered
- Designed specifically for overweight patients
- Electric assisted function with 4 programmed positions: Patient Trolley, Chair, Bed, CPR Function
- Motor driven 5th wheel for easy steering
- Lateral tilt of mattress base to improve patient mobility
- Safe working load 350kg

## Emergency & Utility trolleys

### Aurion Compact Emergency Carts

- Custom designed to suit all environments
- Lockable drawers with 3 central locking devices to choose from
- Individual tags for labelling each drawer
- Medication basin - stainless steel fully autoclavable
- Waste container
- 46 Accessories with personalized solutions
- Body composed of a single rounded piece of Baydur polyurethane
- Does not react with diluted acids, alkali and solvents
- Handles moulded into the body

### Aurion Emergency 3 Cart

### Aurion Operating Room Cart

### Aurion Utility Cart

# Emergency & Utility trolleys

## Prolite Trolleys

Designed around users to guarantee quickness of manoeuvres and time of intervention, safety, high hygiene standard, reliability, high level of customization and upgradeability during the years

### Prolite Standard Emergency Basic Body

- Overall measurements 835 x 645 x 940mmH
- Basic body includes: right side drugs / ampoules drawer
- Left side pullout shelf
- CPR cardiac massage board
- Rear oxygen bottle holder

### Prolite Anaesthesia

- Easy access to medications needed at the point of care (ABC's equipments)
- Security
- Organisation
- Ample workspace

### Prolite Emergency

- Emergency care to the patients as quickly as possible
- Easy manoeuvrability
- Simultaneous access
- Organisation

### Prolite Procedure

- Secure and portable storage option
- Keeps patient treatment supplies close at hand at all times
- Customizations
- Flexibility
- Ample work space
